

CHILDREN AND THE BUILT ENVIRONMENT

COMPONENTS FOR OPTIMAL GROWTH: VALERIE FRONZCEK MEMORIAL WORKSHOP SERIES

Join Robin Moore, international expert on the design of children's play and learning environments, for a 1-day workshop on creating and managing built environments that foster children's play and learning.

He will speak on theory and evidence-based practice of creating and managing built environments that support healthy child development, and provide case studies illustrating the challenges and successes of places, programs and policies that positively impact child development.

There will be time for group work aimed at action planning. Lunch will be provided to maximize your time to network with peers and explore the Healthy City Exhibit from the New Westminister Healthier Community Partnership Committee.

Who

Education, recreation,
urban planning
professionals, and policy
makers
