

Island Planner

Located in the Salish Sea between the BC mainland and the southern end of Vancouver Island, the Islands Trust Area is a scenic archipelago of 13 major islands and more than 450 smaller islands. The islands are characterized by their extraordinary ecology and vibrant communities, with each island having its own distinctive history and feel. The Islands Trust is mandated to preserve and protect the unique amenities and environment of these islands. It achieves this mandate through environmentally sound land-use planning, land conservation (via the Islands Trust Conservancy), and, on a regional basis, through advocacy and strategic co-operation with other agencies.

The Salt Spring Island office provides land-use planning services to the Salt Spring Island Local Trust Area, which includes Salt Spring Island and 25 additional islands nearby. Islands Trust staff are dedicated professionals, committed to the mandate of the trust, who support a progressive, healthy and respectful workplace.

Our Salt Spring Island team is seeking a bold, passionate, experienced, articulate, and well-organized senior planner. Work with us – to make a difference. For more information, visit our [Employment Opportunities webpage](#).
