

Dear PIBC Members,

We would like to invite you to join us for the **9th annual symposium hosted by the School of Community and Regional Planning (SCARP)** at the University of British Columbia. On Friday, March 3, 2017 SCARP students will be hosting colleagues, professionals, and academic guests for **Audacity: bold Ideas for planning communities**.

We invite professionals, academics and students to join us for a full day of discussion on planning issues related to this year's theme, **Audacity**. This theme is about bold, daring ideas to inspire future planning initiatives, taking a brave stance against the status-quo and demanding a push for new ideas, innovations, and actions. The symposium will promote discussion on the issues we are currently facing as planners and urbanites by bringing together leaders of change in our cities and communities.
